

## NPC Essentials-Quick Reference Cards

NPC Essentials-Quick Reference Cards is a distilled adaptation of Johnn Four's NPC Essentials, a great roleplaying aid for Game Masters. The purpose of these cards is to provide Game Masters a quick reference for dealing with the likely event of having to create/define an NPC, or Non-Playing Character, during a game session. These cards are intended for use in accompaniment with the NPC Essentials book, not to supersede it. It is highly recommended that NPC Essentials continue to be referenced for the creation of anticipated or planned NPC's.

Each NPCE-QRC card provides a variety of information useful for defining and describing NPC's. The information of a single card is not meant to be taken as a whole, but rather as a collection of suggestions to be used as the GM sees fit. Some aspects - such as appearance, mood, and traits - are merely a collection of words to be used individually, while other categories, such as Quirks, Secrets and Events, may be used as they are presented.

To use the cards, the GM should randomly select at least three cards, then select the information desired to apply to the NPC needing definition.

Each deck of NPC Essentials-Quick Reference Cards includes 100 cards, which provide information on the following NPC-creation topics: Name, Race, Gender, Power Base, Alignment, Archetype, Appearance, Mood, Quirks, Secrets, Traits, and Events.

In-depth information on these aspects of NPC creation (and more!) can be found in Johnn Four's NPC Essentials.
